

Bread shaping

Knot

Gently roll the dough into a long 'sausage'. Tie into a knot.

Hedgehog

Shape the dough into a hedgehog (a pointed nose at the front and round at the back). Carefully, use scissors and snip around the 'hedgehog' creating the 'spines'. You may wish to add eyes (e.g. raisins).

Cottage loaf

Make one small and one large 'balls' of dough. Knead each piece until smooth. Place the small piece on top of the larger piece of dough. Press the handle of a wooden spoon through the two pieces of dough

Plait

Divide the dough into three. Roll each piece into a long 'sausage'. Place next to each other and plait together, tucking in the ends.
